

responsible for loving our neighbor just like we'd like to be loved ourself.

For all Americans, these years in our history will always stand apart. There are quiet times in the life of a nation, when little is expected of the leaders. This is not one of those times. You and I are living in a period when the stakes are high, the challenge is difficult, and resolve is needed. None of us will ever forget that week when one era ended and another began.

On September the 14th, 2001, I stood in the ruins of the Twin Towers. I'll never forget that day. I remember the workers and the hardhats who were shouting, "Whatever it takes." I remember the guy who pointed his finger at me and said, "Don't let me down." As we all did that day, these men and women searching through the rubble took it personally. I took it personally. I have a responsibility that goes on. I will never relent in bringing justice to our enemies. I will defend our country, whatever it takes.

In these times, I've also been a witness to the character of this Nation. Not so long ago, some had their doubts about the American character, about our capacity to meet serious challenges or to serve a cause greater than self-interest. But Americans

have given their answer. I've seen the unselfish courage of our troops. I've seen the heroism of Americans in the face of danger. I've seen the spirit of service and compassion renewed in our country. We've all seen our Nation unite in common purpose when it mattered most.

We'll need all these qualities for the work ahead. We have a war to win, and the world is counting on us to lead the cause of freedom and peace. We have a duty to spread opportunity and hope to every part of America. This is the work that history has set before us. We welcome it. And we know that for our country, the best days lie ahead.

May God bless you all.

Message to the Congress Transmitting a Protocol to the Indonesia-United States Agreement on the Peaceful Uses of Nuclear Energy *March 4, 2004*

To the Congress of the United States:

I am pleased to transmit to the Congress, consistent with sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)) (the "Act"), the text of a proposed Protocol Amending the Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of Indonesia Concerning Peaceful Uses of Nuclear Energy, signed

at Washington on June 30, 1980. I also transmit my written approval, authorization, and determination concerning the Protocol, and an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the Protocol. (Consistent with section 123 of the Act, as amended by title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105-277), a classified Annex to the NPAS, prepared by the Secretary of State in consultation with the

Director of Central Intelligence, summarizing relevant classified information, will be submitted to the Congress separately.) The joint memorandum submitted to me by the Secretary of State and the Secretary of Energy and a letter from the Chairman of the Nuclear Regulatory Commission stating the views of the Commission are also enclosed.

I am advised that the proposed Protocol has been negotiated consistent with the Act and other applicable law and that it meets all statutory requirements. This Protocol will advance the nonproliferation and other foreign policy interests of the United States.

The Protocol amends the Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of Indonesia Concerning Peaceful Uses of Nuclear Energy in two respects:

1. It extends the Agreement, which expired by its terms on December 30, 2001, until December 30, 2031, with effect from the former date; and

2. It updates certain provisions of the Agreement relating to the physical protection of nuclear material subject to the Agreement.

As amended by the proposed Protocol, the Agreement will continue to meet all requirements of U.S. law.

Indonesia is a party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and has an agreement with the IAEA for the application of full-scope safeguards to its nuclear program. It was also

among the early sponsors of, and is a current party to, the Southeast Asia Nuclear Weapons Free Zone. The United States and Indonesia have had a long and positive history of cooperation in the peaceful uses of nuclear energy, with our earliest agreement for this purpose dating back to 1960.

I have considered the views and recommendations of the interested agencies in reviewing the proposed Protocol and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the Protocol and authorized its execution and urge that the Congress give it favorable consideration.

This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Atomic Energy Act. My Administration is prepared to begin immediately the consultations with the Senate Foreign Relations Committee and House International Relations Committee consistent with section 123 b. Upon completion of the 30-day continuous session period provided for in section 123 b., the 60-day continuous session period provided for in section 123 d. shall commence.
